

Solid Solutions are the UK's recognised leading and largest supplier of SolidWorks. Due to strong growth, we are looking to expand our team throughout our UK offices. These roles offer an exceptional opportunity to work with some of the best people in the industry, selling a leading CAD product. We require determined people that are customer focussed, passionate and wish to be well-rewarded.

PLACEMENT STUDENTS

Placement students based in Leamington Spa

Paid Placement, Competitive Salary, Accomodation Benefits + Bonuses

We require a number of placement students from the summer of 2015 who will be actively involved in training and post-sales support.

Placement students are based in Leamington Spa where accommodation is provided. The placement is for 1 year. We are seeking exceptional individuals with the drive and commitment to go the extra mile and who can demonstrate one or more of the following:

- The ability to understand, solve and present solutions to engineering and CAD related challenges.
- The skills to provide excellent training to new and advanced SolidWorks users.
- The ability to work with existing customers to help achieve effective systems deployment.
- Willingness to work across various industries whilst continually developing advanced and varied SolidWorks product skills.

Previous SolidWorks experience is not necessarily essential, as extensive product training and intensive ongoing technical development is provided - some CAD skills, a strong customer focus and a keen desire to succeed are.

If you have the ability to think laterally, wish to work within a highly dynamic and challenging environment and are keen to focus your energy on the needs of our engineering design customers, we would like to hear from you.

DESIGN & ENGINEERING GRADUATES

Leamington Spa, Fareham, Leeds, Durham

Up to £32,000 base salary (based on experience) + Bonuses

Due to continued growth, Solid Solutions require additional engineers for its award-winning customer support, training and pre-sale team. With an established and extensive client-base, plus a strong record of delivering customer satisfaction, the opportunities exist to develop a broad and varied career supporting advanced CAD solutions.

Previous SolidWorks experience is essential as is a strong customer focus. If you have a proven track record in problem solving and the expertise and passion to focus your energy on the needs of our engineering design customers we would like to hear from you
