SOLIDSOLUTIONS

SUPPORTING EXCELLENCE

WHAT'S NEW

Overview

With so much new technology being added into SOLIDWORKS each year, it's sometimes easy to overlook or miss some of the new features. Covering up to 4 previous years enhancements this personalised seminar will take a look at past and present enhancements.

We will customise the session to suit your industry and version of SOLIDWORKS, showing you as many of the great new enhancements as we can.

This session is an ideal way to make sure your users are utilizing all of the tools available in SOLIDWORKS, ensuring your work is completed as efficiently as possible.

What we will cover:

- Use cutting edge functions and options to get the job done as quickly as possible

- Hundreds of enhancements tailored into a bespoke presentation

- Maximize your use of the current version of SOLIDWORKS

In previous releases SOLIDWORKS not only create and include new functions, but also entirely new products within the software. Is your team aware of what they have available to them in the latest release?
